DISMAL SWAMP PARK BRIDGE CLOSURE TO MARITIME TRAFFIC

CAMDEN COUNTY, DISMAL SWAMP CANAL

The Dismal Swamp State Park bridge, owned and operated by North Carolina State Parks, is currently inoperable in its closed position and prevents vessels from transiting through the Dismal Swamp Canal. The repair timeline is currently unknown. Transiting via the Albemarle and Chesapeake Canal is a potential alternative.

Please refer to the Coast Guard Local Notice to Mariners for updates on this project.
